PROFIX

Tile and stone installation systems

IEQ Credit 3.2 option 3

Indoor Environmental Quality Construction IAQ Management Plan: Before Occupancy

Intent: Reduce indoor air quality problems resulting from the construction / renovation process in order to help sustain the comfort and wellbeing of installers and occupants.

Object: Certification letter to certify that VOC levels in PROFIX products are in compliance with the LEED prerequisites established for the Indoor Air Quality category.

La Margna Inc., as the exclusive manufacturer of PROFIX tile and stone installation products and PROTHERM radiant floor systems, is committed to offering you superior quality products that meet or surpass industry standards which are established by the Terrazzo, Tile & Marble Association of Canada (TTMAC) and by the Tile Council of North America (TCNA).

In my capacity as Director of Research and Development for La Margna Inc., I declare and certify that all of the products listed in the appendix titled "PROFIX products relating to the prerequisite for EQ Credit 3.2 option 3 Indoor Environmental Quality" comply with the current limits for volatile organic compounds established by regulation 1168 "Adhesive and Sealant Applications" of the SCAQMD. Using PROFIX products will facilitate the attainment of requirements for EQ Credit 3.2 option 3.
