

NU ZONE S

STRIPPER FOR SOLVENT BASED SEALER

DESCRIPTION

Nu Zone S sealer stripper comes in a concentrated format for excellent and fast results in removing solvent-based sealers.

CHARACTERISTICS

- pH: 10
- VOC content : 0 g/L
- Fast-acting
- Faint odour

FORMATS

- 1 L bottle – 12 per box

TECHNICAL DATA AT 22°C

COVERAGE

Depends on the cleaning that needs to be done.

SHELF LIFE

24 months following production date. Must be stored in a dry and heated area.

TECHNICAL NOTES

MAIN USES

For residential and light commercial uses, both indoors and outdoors. Recommended for calcareous stones or unsealed marble.

INSTRUCTIONS

APPLICATION

Test first on a small surface to assure suitability of coverings. Make sure to wear gloves during the application. Spread a coat of remover with a cloth or sponge. Apply on a small area at a time and never let the solution dry on the surface being stripped. Every 10 minutes, scrub the surface with a white scrubbing pad to maximize the penetration of the remover for a period of 30 to 60 minutes. Rinse thoroughly with clean water and absorb the solution with, if possible, a liquid vacuum cleaner or a dry cloth. Allow to dry completely before applying a sealer. Repeat this process if necessary until all sealer is removed.

LIMITATIONS

- Keep out of reach of children
- Wear safety glasses and gloves when applying
- Use in a well-ventilated area
- Avoid freezing and heating

WARRANTY

The above information is accurate. However, as we have no control over conditions of use, we cannot assume any legal or other responsibility for the outcome and/or any harm that may ensue.

LEED

Leadership in Energy & Environmental Design (LEED) is a green building rating system that plans, develops, compares and certifies sustainable buildings around the planet. The Canada Green Building Council certifies the project in terms of total points obtained after verifications and an examination of the documentation submitted by the design and construction teams. Ceraflex can help to achieve the following credits.

INDOOR ENVIRONMENTAL QUALITY:

IEQ Credit 3.2 option 3 - Reduce indoor air quality problems

IEQ Credit 4.1 - Low Emitting Materials

Refer to the PROFIX website for letters of certification.

CAUTION

In case of contact with eyes or skin, rinse thoroughly with water. If inhaled, get fresh air. If ingested, do not force vomiting, but rather drink lots of water. If irritation persists, seek medical attention.

HEALTH AND SAFETY

Refer to the MSDS on our website for handling recommendations.
