

IEQc Credit 4.1

Indoor Environmental Quality

1 LEED potential point

Low Emitting Materials - Adhesives and Sealants

Intent

Reduce the quantity of indoor air contaminants that are odorous, potentially irritating and/or harmful to the comfort and wellbeing of installers and occupants.

Object

Certification letter to certify that VOC levels in PROFIX products are in compliance with the LEED prerequisites established for the Indoor Air Quality category.

La Margna Inc., as the exclusive manufacturer of PROFIX tile and stone installation products, is committed to offering superior quality products that meet or surpass industry standards which are established by the *Terrazzo, Tile & Marble Association of Canada (TTMAC)* and by the *Tile Council of North America (TCNA)*.

In my capacity as Director of Research and Development for La Margna Inc., I declare and certify that all of the products listed in the appendix titled "PROFIX products relating to the prerequisite for IEQ Credit 4.1 Indoor Environmental Quality" comply with the current limits for volatile organic compounds (VOC) established by regulation 1168 "Adhesive and Sealant Applications" of the SCAQMD calculated according to "40 CFR 59, subpart D (EPA method 24)".
